EDUCATION

2020- 2024

COMPUTER SCIENCE

Green University Of Bangladesh

As a fourth-year Computer Science Engineering student pursuing a Bachelor of Science degree, I'm immersed in advanced coursework covering topics such as Web programming algorithms, data structures, software engineering, artificial intelligence, and cybersecurity. This education sharpens my technical skills and prepares me for real-world challenges in the field.

2016-2017

HIGHER SECONDARY SCHOOL

Carmichael Collegiate School and College

During my higher secondary education, I studied subjects such as Mathematics, Physics, Chemistry, Biology, English, Geography, CInformation and Communications Technology, Environmental Science, to develop a well-rounded academic foundation.

2018-2019

SECONDARY SCHOOL

Duty high school and collage

During secondary school, I focused on studying various science subjects including Biology, Chemistry, and Physics. This comprehensive science curriculum equipped me with analytical skills, critical thinking abilities, and a solid understanding of fundamental scientific principles.
